**THIS SALE IS FOR CASH ONLY.**

**T. W. ROBINSON'S.**

## THE FIRE FIEND AGAIN.

**Railway Station at Qu'Appelle and Several Buildings at Regina go up in Smoke.—The Losses.**

QU'APPELLE, Jan. 11.—Between three and four o'clock yesterday (Wednesday) morning the town was aroused from its peaceful slumbers by the startling cry of fire, and the news passed rapidly around that the C. P. R. Station was being consumed by the devastating element. As far as can be ascertained, the fire was caused by a defective chimney, or the explosion of a stove or lamp. Mr. Molloy, night operator, had been busy tending a special train which was going east. After the train had pulled out, he went into the telegraph office and was startled to find it ablaze. He at once went to the rescue of his family. It was with great difficulty that the children were got out of the burning building, owing to the choking smoke which prevailed every apartment. Mr. Molloy has a family of eight, and all had to escape in their night attire. Assistance was lent by Mr. R. S. Smith, Mr. J. Bell, Mr. Asa McIntosh, Mr. Love, Mr. Raymond and others who were quickly on the scene. Miss K. Molloy fell at the head of the stairs, and was overcome, being carried out by Mr. McIntosh. By this time the fire had got beyond control, and efforts were directed towards saving the most portable articles stored in the freight shed. A strong breeze from the west fanned the flames and the heat from the burning building was intense, huge tongues of fire mounting to the sky, and sparks flying in all directions. Several barrels of coal oil which were considered to be in a dangerous position were removed to a place of safety, as were also some empty cars standing near the station. Mr. Bulyea's grain warehouse to the east of the station was kept from catching fire. Very little time was available for getting anything out of the freight warehouse for the flames spread so rapidly that soon the whole building was a huge burning mass. The roofing fell in, quickly followed by the collapse of the walls, and an hour after the first alarm the station was totally destroyed. The books, telegraphic instruments, etc., were consumed, as were also all Mr. Molloy's household goods, and the clothes of the whole family. The furniture destroyed included a \$250 parlor suite and a \$90 bedroom suite. Mr. Molloy managed to save his cash box, but a \$130 English lever watch, which was lying beside it on the bureau unknown to Mr. Molloy, was left behind. We believe the C. P. R. is fully insured, but the night operator did not carry any insurance on his effects, and much sympathy is felt for him in the serious loss he has sustained. Mr. E. W. Warner, station agent was at the scene of conflagration looking after the interests of the company. He at once secured Mr. Bulyea's grain warehouse, which is conveniently situated, to utilize as a temporary station, and together with Mr. H. Gishorne, the District Superintendent, Government Telegraph Service, lost no time in re-establishing telegraphic communication.

REGINA, Jan. 11.—Shortly after one o'clock this morning fire broke out in Mr. W. G. Pettingell's drug store, South Railway St. The fire alarm was quickly rung, and a large number of citizens turned out. The fire, which started between the ceiling and upper floor, was difficult to get at, but by hard work with the chemical engine and a plentiful supply of snow and water it was for some time confined to the interior of the building and several times was thought to be almost extinguished, but it finally succeeded in gaining the ascendancy and in about an hour the entire building was in flames. During this time busy hands were moving the stock from Messrs. McCarthy, Kelly and Nevison's places of business, while others were engaged in preventing the fire from getting a hold upon Kelley's barber shop, which was many times in great danger, and was only saved by the greatest effort. Five or six sleighloads of Mounted Police had arrived from the barracks by this time, and they at once got to work and demolished the shack formerly occupied by a barber next to Kerr's hardware store. Sam Sing's laundry was then caught by the flames, and was soon burnt to the ground. By 4 o'clock all danger of the fire spreading further was past. Some of the best and hardest work was done at this fire that we have ever witnessed on any similar occasion in Regina, and it was undoubtedly on this account that a tremendous conflagration was averted. The losses are as follows: Two small buildings belonging to Major Montgomery, \$600; H. C. Lawson, store, \$800; W. G. Pettingell, stock, \$3,500, insured for \$2,000; J. Smith, damage to building, \$200; W. C. Kelly, damaged stock, \$150; E. McCarthy, loss from damage sustained in removing \$10,000 stock of gent's furnishings, clothing, etc., unknown but very heavy. Almost everyone made sure that the fire would at least reach McCarthy's corner, and willing hands removed the stock very hurriedly and consequently in very bad order.

## A Big Western Steer.

Mr. Hull's big steer, which was slaughtered yesterday, says the Calgary Tribune, tipped the beam at 3,500 lbs live weight. He was a dandy.

## C. P. R. Agent Fowler Retired.

W. C. Fowler, who has filled the position of C. P. R. agent at Regina for the past ten or eleven years, quitted the service at the end of last month and goes farming. We understand that Mr. T. S. Rathford agent at Broadview, has also vacated his position.

## A Successful Virden Farmer.

A farmer residing a short distance from Virden states that, in spite of the hard year, he has cleared from his farm during the past year \$1,000 over and above all expenses. The farmer did not market all his eggs in one basket; he sold pork, beef, potatoes, oats, wheat butter etc., which appears to be the only way now to make farming pay.

Relief in Six Hours.—Distressing kidney and bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidney, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Toie.

## Derailment of Passenger Train.

About noon yesterday a number one was proceeding westward her progress was considerably retarded by hard snow caused by the severe storm of Wednesday. About two miles west of Enfold, a blind siding some sixty miles west of Moose Jaw, the train struck a cut filled with snow, packed as hard as sand, which caused the derailment of the locomotive, and the express mail and baggage cars. The nearest telegraph station is Chaplin, 11 miles from the scene of the wreck, and agent Cook, who was on the train, covers this distance in two hours. The cause of delay was promptly wired to Moose Jaw and a wrecking crew, in charge of Conductor Card and Locomotive foreman Rollo, was promptly despatched to straighten matters out. The east bound passenger special was held at Morse. The derailed cars and engine were replaced on the track in the remarkably short space of twelve hours. The delayed passenger east reached Moose Jaw at 1:15 this morning. Last night's number two arrived at 3:10. This train being late from the west, was only delayed about an hour by the wreck.

## A LIFE CONTRACT.

**Engineer Joseph Hyland and Miss Maggie Cowan Married on Wednesday.**

The wedding of the two young people whose names appear at the head of this column has been expected for some considerable time. Those who know all about these things—the gossip, male as well as female—had the whole thing cut and dried long ago and the event was to take place early in December. Father Time made considerable inroads into the month, however, and they came to the conclusion that they were a little off in their reckoning. So a new date was agreed upon, this time for Christmas week. The festive season rolled around and, much to the disgust of the gossip-mongers, the marriage did not take place.

## ON WEDNESDAY EVENING.

stormy night though it was, the presence of several companies of small boys in the vicinity of a certain house on Manitoba St. forced a Times representative to the conviction that something out of the ordinary was taking place inside, and so indeed there was. The downstairs of the house was occupied by a throng of people and they all appeared to be waiting, with eager expectancy written in their faces, for reinforcements.

Presently Mr. Joseph Hyland accompanied by Mr. Ed. Jackson, and Miss Cowan with Miss Bessie Matheson swelled the numbers of the crowd and stood up before Rev. W. L. Clay, who happened to be present. The reverend gentleman produced a book from somewhere and proceeded to read from it. Occasionally he would ask Mr. Hyland and Miss Cowan some questions and it was noticed that they invariably returned affirmative replies. It then dawned upon the inner consciousness of the Times representative that

## A WEDDING WAS TAKING PLACE.

After receiving the congratulation of their many friends, the bride and groom led the way to the supper table where a magnificent repast was thoroughly enjoyed.

## THE WEDDING PRESENTS.

The following is a list of presents received by the bride which shows the high esteem in which the bride and groom were held: Bible from Presbyterian congregation; silver butter cooler, (groomsman) Mr. Ed. Jackson; glass water set, (bridesmaid) Miss Bessie Matheson; china set, Mr. and Mrs. Charlie Coxon; parlor lamp, Mr. and Mrs. T. W. Robinson; fruit set and fancy lamp, Miss Hyland; silver pickle cruet, Mr. and Mrs. Hardy; silver cruet, Mr. and Mrs. Cartwright; silver breakfast cruet, Miss Dickson; table linen, Mr. P. J. Barlow; carving knife and fork, Mr. and Mrs. Herler; fancy pin cushion; Miss Martin; 1 doz. silver knives, Mr. F. Garham; silver butter cooler, Mr. C. Leary; fancy table cloth, Misses Coventry and Winn; handsome silver ice pitcher, Messrs. J. Robinson, L. Bailey, J. Sanderson, F. Witham and I. M. McIntyre.

## Hudson Bay Co's Steamers.

The Hudson Bay company, owners of the two steamers, Northwest and Marquis, now lying in winter quarters at Prince Albert, will, it is said, place the Northwest on the route between Edmonton, Battleford, Prince Albert and Grand Rapids, as a passenger and freight boat next season, and remove the cabin and upper decks from the Marquis, converting that fine steamer into an exclusive freight boat. The Northwest did a profitable season's trade last year, the officers of the company doing all in their power to give satisfaction to the interested public.

## THE MANCHESTER SHIP CANAL

One of the greatest engineering achievements of the nineteenth century has just been completed and the city of Manchester is now a port of entry. The construction of the gigantic canal provides water-transit to the heart of England and it is interesting to know that the work of connecting Manchester with the ocean has taken nearly a quarter of a century.

The total length of the canal is 35½ miles, and in that length there are five sets of locks. The bottom width is a uniform 120 feet and the surface width 172 feet, with an average depth of 26 feet of water. These proportions enable vessels of the largest possible class to pass in the canal without having to enter embayments. The country through which the canal passes is mostly flat, there being a variation of only 60 feet in the levels from end to end. It is cut through rock, clay, peat, and quicksand, and railways and rivers have been diverted to give it the right of way. The capital named in the final bill was £8,000,000, and Parliament with that foresight which is a very commendable quality of English legislation, made it a condition that work should not be commenced until £5,000,000 was subscribed in addition to certain large compulsory payments. Mr. Thos Walker obtained the contract for £5,725,000 but he died, and fresh arrangements had to be made for continuing the work. The company exhausted its resources, applied for further capital powers, obtained from Manchester two advances of £3,000,000 and one of £2,000,000, and now, two years after the expected time, the canal is finished.

## NORTHWEST SCHOOL LAW.

The time within which the Northwest school law of 1892 can be disallowed expires on the 23rd instant. There is, therefore, no time to be lost in reaching a decision and submitting it to Council in the shape of a report from the Minister of Justice. As yet the Minister has drawn up no report, but is discussing the matter with some of his colleagues. Further petitions from the Catholic clergy and others of the Northwest have been received. There is a decided difference of opinion whether this is a case for the exercise of the power of disallowance. Some of the Ministers contend that if the school ordinance of 1888 and amending acts were within the power of the Regina Assembly, the act of 1892 is equally intra vires, because the one is consolidation and amendment of the others. They also say it is strange if, in the matter of text-books, a new, sparsely-settled country cannot agree on the one set, so that confusion, change and expense may be minimized. As to the Sisters of the Catholic Church being shut out from teaching under the new regulation requiring a Normal School certificate, it is urged that this would scarcely be a sufficient ground on which to veto the ordinance. The inspection of all schools under the Council of Public Instruction or its Superintendent is a point the supporters of the ordinance rather regard as a good one. On the other hand, Sir John Thompson is understood to have pointed out to some of his colleagues

that the hours for religious instruction, the character of the text books, and the qualification of the teachers, are subjects hitherto left to the Roman Catholic section of the Board of Education, whereas, they are all now relegated to the new Council of Public Instruction, in which Roman Catholics have no votes, thus withdrawing from the Church the exclusive control exercised all along over these vital matters, and breaking the spirit, if not the letter, of the constitutional act. How Hon. Mr. Daly and the Ministers from Ontario can reconcile their differences on this question with the Premier and other colleagues, it is not easy to see, for all of them are strongly in favour of allowing the people of the Northwest to manage their own schools in their own way. The Comptroller of Customs voted in the House of Commons for Mr. McCarthy's bill to give the Northwest home rule in matters of education.

## THE NEW WINNIPEG DAILY.

The prospectus of the proposed new Winnipeg daily is to hand. The new paper is to be known as the *North Western* and the company as the Northwestern Publishing company. The name selected for the proposed paper is not one that will become popular. The authorized capital stock is \$25,000, which is a small sum with which to begin the publication of a daily paper in a large centre like Winnipeg. The charter directors are Alex. Macdonald, wholesale grocer; R. P. Roblin, grain merchant; W. F. Luxton, journalist; Colin H. Campbell, barrister; Geo. D. Wood, wholesale merchant; Murray H. Miller, agent. W. F. Luxton will be managing editor. It is proposed to publish an evening and weekly at the outset, and later to issue a morning edition. It is stated that the new journal will not be the organ of any political organization but will be run on independent principles. It will require considerable capital and great energy and ability to make a third daily paper in Winnipeg a profitable business enterprise; but Mr. Luxton is an old hand at the business and his long connection with journalism may insure strong support. His course during the past few years, however, the bitterness of his attacks on Greenway and Martin, and the vindictiveness that breathed in every one of his editorials will not be forgotten, and it need not be wondered at if his new enterprise be received somewhat coldly by many.

## A POPULAR LIEUTENANT GOVERNOR.

The interest evinced by Lieutenant Governor Mackintosh in Territorial affairs and his evident desire to co-operate with the rulers of the people, in every measure calculated to advance Territorial interests furnishes a marked contrast to the attitude of hostility assumed by the late lieutenant governor. The following extract is from a letter written by His Honor the Lieutenant Governor at the annual dinner of the Toronto Board of Trade:

"A few years ago raucous and Indian tepees, Hudson Bay and mounted police posts and a few trading houses were found throughout the Territories. To-day thriving villages, flourishing towns and progressive cities mark the advance of higher civilization. The province of Alberta is transporting to eastern and western markets cattle, representing in value hundreds of thousands of dollars, dressed beef at the rate of several car loads per week, is sent to Montreal, Ottawa, Quebec and Toronto; splendidly equipped ranches are ensuring solidity and future wealth; and I might mention, as significant, the fact that in the three provisional districts of Alberta, Assiniboia and Saskatchewan, the increase of live stock in 1893, over 1892, approximates fully 250,000. North in the Edmonton and Prince Albert country, district of Saskatchewan, besides vast wheat fields, the smaller and more remunerative products of the farm are grown with facility and in abundance, surpassing the capabilities of any state in the American union possessed of even greater advantages."

Lumber is readily obtained, railway communication exists, and I doubt not the future will fully establish the wisdom of those who early took up homesteads and determined to do justice to themselves and the settlement.

What shall be said of Assiniboia? This district is destined to become the Manitoba of the Northwest, possessing as it does every agricultural advantage. Mixed farming is rapidly progressing; granaries are being established; cattle, hogs, poultry and other prime necessities of life are being raised; local industries are making rapid strides; while the people who work receive rich returns as a result of their thrift and devotion to duty.

One has but to point to the North-West at the recent World's Fair for an object lesson, which he who runs can read and learn. More than this—and another object lesson worthy of study—in 1881 only 34 homesteads had been granted in the North-West; in 1892, 3,381 had been granted. In 1881, 6,294,000 acres had been surveyed, and in 1892 59,974,720 acres had been surveyed. What we now want is vigorous workers to develop this splendid heritage."

Thus, hurriedly, I express my sentiments, but, nevertheless, they are sincere and I am proud to know that at your approaching reunion on the 4th of January, 1894, the watchword of every true Canadian, irrespective of political bias will be, "One Law, One Flag, One National Destiny."

I remain, my dear sir,  
Ever faithfully,  
C. H. MACINTOSH,  
Lieutenant-Governor of the North-West Territories

Lecturing in Calgary a few days ago Mr. Nicholas Flood Davin dealt with the question of young men in politics. "Unfortunately," he said, "it was thought in Canada that a young man was not fit for cabinet positions till at least he was over 45 years of age and he said that when Sir John Macdonald was organizing his cabinet after McKenzie's defeat, he had been urged to bring in young men, but instead he stuck to the 'old fogies' of the party and to this was to be attributed a great deal of the mis-government and corruption in politics. He said that Sir John was afraid to have any man of real ability associated with him for fear of usurpation of his power." Turning to North-West Assembly business, he compared the extent of country under control of the Legislative Assembly with some of the kingdoms of Europe and said they were doing good work and laying the foundation of a great government. He gave a very amusing account of Ex-Governor Dewdney, accompanied by Archbishop Tache, Father Ledue, Father Lacombe and himself going from Government House, Regina, to open the Legislative Assembly.

The Christian Guardian has the following comment upon the question of Barnardo boy immigration:

The sentence of death recently passed upon a boy in Manitoba for murder has directed attention to the class of boys sent out by Dr. Barnardo, one of whose boys the young criminal was claimed to be. Dr. Barnardo has vigorously denied this, and declares that less than two per cent, of those sent out by him have proved failures also that only a fraction of one per cent, have joined our criminal population. This has opened the larger question as to the character of young emigrants sent out by charitable persons and institutions.

If taken from the poorest classes of British cities, we see no way of avoiding the conclusion that a portion of these little waifs must be tainted with bad heredity. There may be many of them whose poverty and helplessness are their only defects. It is desirable that the real character of such emigrants should be ascertained by governmental inquiry.

## CASH.

A prime necessity, you will agree!

A few months ago we placed the school books department on a cash basis. The public caught on at once, brought their cash and got their school books without suffering any inconvenience. We intend to apply the principle to the other branches of our business.

The arrangements existing with customers who have always paid their accounts promptly will be continued, but we do not wish to open new accounts.

The dispensing department will not be closed against anyone requiring medicine who has not the money to pay for it at the time; but we take it that this is all the stronger reason why it should be paid for at the earliest possible moment.

**W. W. BOLE.**

The Moose Jaw Times.

FRIDAY, JAN. 12, 1894.—No. 30

### LOCAL AND GENERAL NEWS.

Mr. Jos. Blackburn, of Brandon, is in town.

W. S. Urton, of Duck Lake, was in town last week.

The Times regrets to chronicle the death of Editor Mathers of the Nepawa Register.

#### Installation of Officers.

The installation of A. O. U. W. officers took place in the lodge room on Wednesday evening and was followed by an oyster supper at Healey's restaurant.

#### W. C. T. U. Meetings.

The W. C. T. U. will hold a musical and literary entertainment in Russell Hall on Wednesday, 17th inst. Doors open at 7:30, commencing at 8 p.m. Admission 10 cents. A full house expected.

#### Temperance Meeting.

A gospel temperance meeting was held in the Methodist church at the close of the evening service last Sunday, at which Rev. W. L. Clay and Rev. F. B. Stacey delivered stirring addresses. Revival services are being held in the Methodist Church each evening this week.

#### To Imprisonment for Life.

The boy murderer, Philip Hill, has had his sentence of death commuted to imprisonment for life. The boy received the news indifferently.

#### In search of Knowledge.

Dr. McKidd, of Calgary, and Brett, of Banff, accompanied by their wives have gone to Vienna, Austria, to pursue a course in hospitals and sanatoriums.

#### Dr. Scott a School Trustee.

At the annual meeting of the public school board of Estevan, Dr. E. H. Scott was elected trustee to fill the vacancy caused by the resignation of J. C. Mitchell.

#### Macintosh at Broadview.

At a meeting of Broadview citizens recently it was decided to tender Lieut. Gov. Macintosh a reception and ball on the occasion of his intended visit to Broadview.

#### Visit of the Homestead Inspector.

Homestead Inspector Rogers writes to say that he will be in Moose Jaw on Monday and Tuesday, Jan. 15 and 16, and that all persons who have business to transact will please call upon him with their witnesses.

#### L. O. F. Reunion Dinner.

The annual reunion dinner of the local lodge L. O. F. will take place at the Aberdeen house on the evening of January 26th. Married members are expected to bring their wives and bachelor members their sisters.

#### January Proverbs.

If the grass grows in January,  
It grows the worse for all the year.  
A January spring  
Is worth nothing.  
March in January,  
January in March I fear.  
If January calends be summerly gay,  
'Twill be winterly weather till the calends of May.

#### At Progressive Euchre.

Mrs. T. W. Robinson gave a pleasant progressive euchre party on Monday evening. Altogether there were three tables and euchre was indulged in by Miss Stevenson, Miss Nora Stevenson, Miss Ostrander, Miss Besse and Winnie Ostrander, Miss Kellie, Dr. Duncan, Mr. Dreyer, Mr. Christie, Mr. J. A. Crough, Mr. C. D. Fisher, Mr. A. Trent, and J. A. Calder.

#### Is he Caught at Last?

DETROIT, Mich., Jan. 3.—Donald Kennedy, one of the most notorious opium smugglers in the country, was arrested at West Detroit last night by U. S. Inspector Carter. Kennedy has been engaged in the business of smuggling opium across the border for nearly ten years, and during that time has managed to elude the vigilance of the brightest men in the secret service.

#### Death of Mr. Geo. Moore.

Mr. Geo. Moore, who has been suffering for some time from the effects of a serious fall from the roof of his stable on the 14th of Dec. last, died on Saturday afternoon at the residence of his brother, River St. The funeral took place on Monday morning at 11 o'clock. The funeral services were conducted in the Methodist Church by the pastor, Rev. F. B. Stacey. The deceased has been long and favorably known in Moose Jaw, and his friends have the sympathy of the entire community in their sad bereavement.

Written for the Times.

#### New Year Resolutions.

##### JANUARY 1st.

I vow that all through ninety-four,  
I will not travel with the boys,  
I'll go out on a toot no more,  
Forego tobacco's soothing joys,  
This year no "booze" shall pass my lips,  
No blood-shot eyes and aching head;  
Instead of "piling up the chips,"  
At tea I'll seek my little bed.

##### JANUARY 4th.

What's playing?—is there room for me?  
I guess my luck will with me stay.  
"Two bits to shoot—one skin to bet—  
And two on jack-pots—did you say?  
Give me a light—eh?—drinking 'skeel!  
And—well now—hang it! I don't know,  
Oh! I pass the bottle here to me  
A little water—Here's a hoe!

#### MARRIED.

REYNOLDS-DAVEY.—On Thursday, Jan. 11th, by the Rev. W. E. Brown, Nathaniel Reynolds to Isabella Lodie Davey, all of Moose Jaw.

BURNS-MARTIN.—At the residence of Thomas Smith, Elkhorn, on the evening of the 11th inst., by the Rev. W. G. W. Fortney, R. A., Edward Burns to Edith, third daughter of Geo. Martin.

HYLAND-COWAN.—At the residence of the bride's mother, on Wednesday, the 10th inst., by the Rev. W. J. Clay, W. J. Hyland to Maggie, youngest daughter of the late Thomas Cowan, all of Moose Jaw.

#### NOTICE.

The annual meeting of the Moose Jaw Agricultural Society will be held in the Town Hall, Moose Jaw, on Saturday, Jan'y 20th, at 1 o'clock.

J. E. ANNABLE, Sec'y.

DRINK and the Death Rate.

The British Medical Association appointed a committee to make enquiries, in order to ascertain the average of the different categories of drinkers, that is to say, those who refrain completely from alcoholic drink, those who indulge more or less in moderation, and those who drink to excess. This committee has handed in its report. Its conclusions are drawn from 4231 deaths, which are divided into two categories of individuals, with the average of age attained by each:—

Total Abstainers,	41 yrs. 22 days
Careless drinkers,	39 " 67 "
Free drinkers,	57 " 33 "
Habitually temperate drinkers,	63 " 12 "
Decidedly intemperate drinkers,	53 " 5 "

Great value in Dinner and Tea sets.

Call and see our many lines before purchasing.

**I. M. CHALMERS.**

## NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the condition governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government for other purposes, and may search therein, either by surface or subterranean prospecting, for mineral deposits, with a view to obtaining a mining location for the same, but no mining location shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth. A location for mining Iron or Petroleum shall not exceed 160 acres in area.

On discovering a mineral deposit, any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations on that behalf, and filing with the Agent of the Dominion Land for the district within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therefor \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

Copies of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS,  
Deputy of the Minister of the Interior,  
Department of the Interior,  
Ottawa, July 1893. } 3c.

### Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba and the North-West Territories, except 36 and 37, which have been homesteaded, reserved for provision, wood lots for settlers, or other purposes, may be homesteaded by any person who is the head of a family, or male over sixteen years of age, to the extent of one-quarter section of 160 acres, more or less.

#### ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteadee desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry; but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspection and cancellation expenses.

#### HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under which of the following conditions he elects to hold his land:—

1. Three years' cultivation and residence during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

2. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months next prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be broken the second year, and 25 acres the third year.

3. The five years' system under which a settler may reside anywhere for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping three acres, and settling 10 acres additional the second year, and also building a habitable house before the end of the second year. The settler must commence actual residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

#### APPLICATION FOR PATENT

may be made before the homestead, or any homestead inspector. Before making application for Patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands of his intention to do so. When, for convenience of the settler, application for patent is made before a homestead inspector, a fee of \$5 is chargeable.

#### SECOND HOMESTEAD

anyone who has received a homestead patent or a certificate of pre-emption commensurate by the Commissioner of Dominion Lands upon application for patent made by him, or had earned title to his first homestead on, or prior to the second day of June, 1889.

#### INFORMATION.

Full information respecting the land, timber, coal or mineral lands, and copies of these Regulations, as well as those respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Dominion Lands, Winnipeg, Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.
